

Irrigation Systems

James Valley Nursery installs and maintains Toro Irrigation Systems, as well as any other competitors, and provides a number of options to install the system that is right for your lawn or business.

Residential

We install professional residential irrigation systems that is just right for your lawn. Irrigation sprinkler heads will evenly distribute water across your lawn during the night and keep your lawn healthy all year long. We also provide Drip Irrigation to individually water plants in your garden or planting beds. Thinking about adding an irrigation system to an existing lawn, but don't want your lawn torn apart by installation? Not a problem. Our equipment pulls high-density polyethylene pipe(HDPE) through the ground and hardly disturbs the sod.

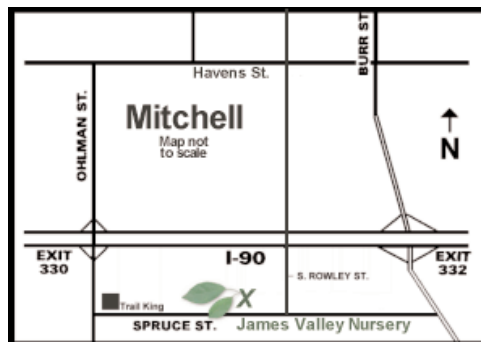

Commercial

We also install professional irrigation systems for your business. Whether you need a small system for maintaining your lawn or a large system covering many acres, we have the equipment to complete the task. Depending on the size of your turf, we can either pull pipe through the ground (polyethylene pipe, HDPE) or trench the irrigation lines in for large systems that must move a lot of water under a lot of pressure (polyvinyl chloride pipe, PVC).

James Valley Nursery is located at:

**600 West Spruce Street
Mitchell, South Dakota**

just 1 mile west of the
Cabela's Super Store.

We are dedicated to being the premier landscaping contractor and gardening supply center in the area. We provide courteous, reliable service and strive to tailor all of our services to meet the individual needs of each of our customers. James Valley Nursery always places customer satisfaction first and guarantees all of our work. In addition, we use only first quality products and equipment, and pride ourselves on having built our business by repeat customer purchases and new referrals. We hope to continue to serve our customers in a friendly, helpful manner.

Landscape Design

Design and Consultation

A landscape and sprinkler plan can be developed for your outdoor living area. As your landscape consultants, we are able to plan and coordinate all phases of your project. Properly landscaped grounds not only enhance the setting, but will increase the value of your property. Detailed landscape design, underground sprinklers, outdoor illumination and quality installation will let your property reach its full potential.

The Design Process

Between now and your first appointment, you may want to compile photos, magazine pictures and sketches of ideas and landscape features you like.

During your first consultation, your designer will want to become familiar with you and your property. You will get acquainted, share your ideas and what you consider to be the strengths and weaknesses as the property is now.

Next, your designer will want to walk the property with you. You will be discussing existing and potential uses of the property, how much time you will want to spend on maintenance, and aesthetic and functional changes which would be desirable. Please convey your expectations of anticipated appearance, budget and completion time.

After an analysis of your needs and desires and existing site, the planning will begin. Depending on the complexity of the situation, your designer will either draw and present a sketch for you on site, or take measurements and draft a plan for presentation.

After the plan has been refined and approved, your designer will discuss options for implementing your design. James Valley Nursery offers professional installation services, or you may choose to do some or all of the installation yourself. Please remember that our estimates are free, but our designs are not. You may secure plans with a deposit.

Floral Design

Stop by and visit our new Floral Center at the Garden Center. You'll find our fresh flowers delightful any time of the year. Our florists are professionally trained in floral design and help you present flowers in unbelievable ways.

We offer Wedding Arrangements in both fresh and silk flowers, as well as rental pieces and other wedding accessories. We can add a unique touch to your wedding cake by adding fresh flowers! New wedding items are arriving daily.

Is your high school prom approaching? We create prom corsages and boutinieres as well.

Landscape Lighting

Imagine a glowing twilight masterpiece from your daytime landscape. Realize your full landscape investment potential with landscape illumination. Get twice the impact from your landscape by seeing it at night! Think of the extra benefit your property will receive when people recognize it by the visual effect it portrays at night.

The addition of landscape illumination does more than make your property attractive and visible, it provides an added bonus of increased security and safety; two important considerations.

Let us help you see your property in a new light!

We carry lighting products by NightScaping, Inc. Visit their website to see the entire line of products we can get for you.
