

From the inventive and visionary mind of Bill Locklin, Nightscaping® was founded over 40 years ago with one goal in mind—perpetuate low voltage lighting to create a beautiful night time atmosphere while creating an environment where one only sees “the effect and not the source.” In this setting, Nightscaping® products accentuate finely appointed homes and provide safety through ideally placed light.

Since the company’s humble beginnings of modified mason jars affixed to car batteries, Nightscaping® has led the landscaping lighting industry with innovative design, unparalleled craftsman utilizing only the finest materials and by maintaining a steadfast hold on exceptional quality standards at all levels of production and customer service.

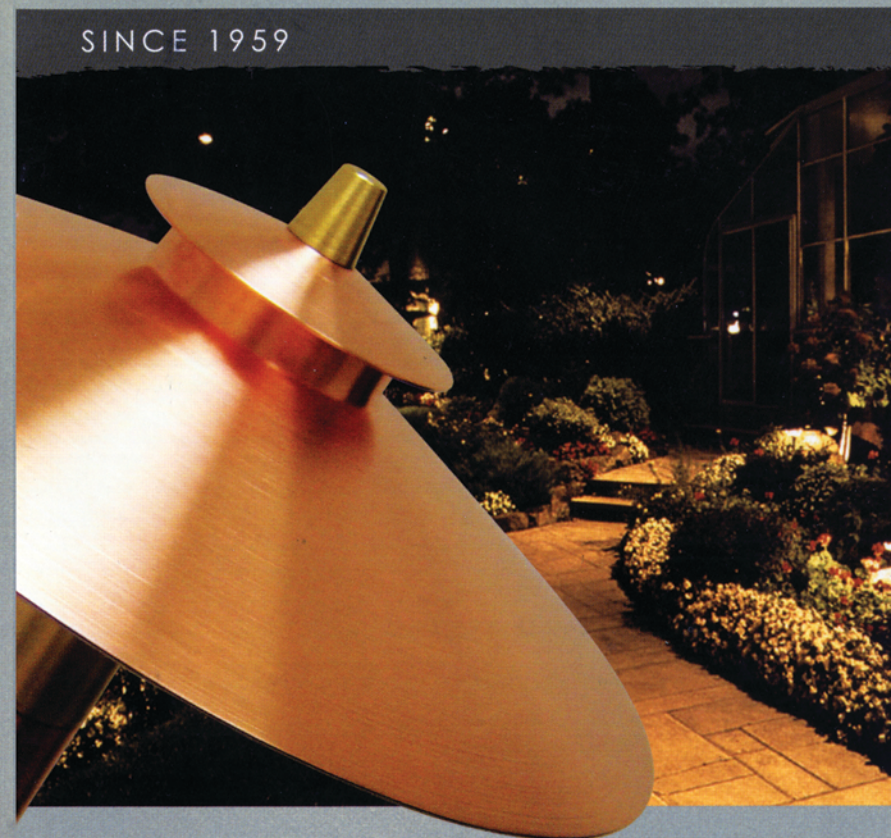

Today, Nightscaping® lighting products can be found all over North America through the company’s exclusive list of distribution partners including leading architectural, landscaping, lighting and construction firms. From custom solutions to meet any unique design challenge to standard landscaping installations, Nightscaping® has been sought out by celebrities, industry giants, politicians, foreign dignitaries as well as thousands of proud homeowners across the globe. When only the best will do, Nightscaping® is the obvious choice.

SINCE 1959

MADE IN THE U.S.A.

### Handcrafted...

---

Manufactured, inspected and authenticated by the craftsman's signature, each fixture is a result of experienced artistry as well as precision engineering. Customization is also available in over 1,000 possible modifications.

### Quality...

---

Nightscaping® stands behind every product produced and most items are guaranteed for life. Built with the finest materials and the most reliable components, each fixture is designed for maximum durability against the test of time and weather conditions.

### Progressive...

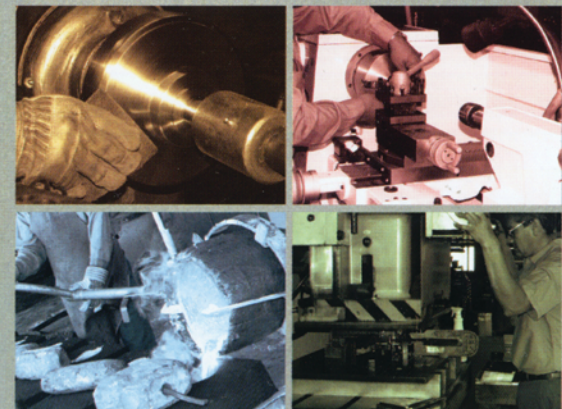

---

As exemplified by the signature line of stainless steel and solid copper fixtures, the company continues to make a strong commitment towards research and development ensuring industry-defining designs for all of its products.

### Advanced...

---

Technologically superior in all facets, each light fixture and transformer is built to maximize the output of 12volt lighting in the most efficient manner possible. The pioneering spirit of new innovation is at the very core of Nightscaping®.
